

[ISSUE-5]: View shopping bag button becomes too high for some languages

Attach Add a child issue Link issue

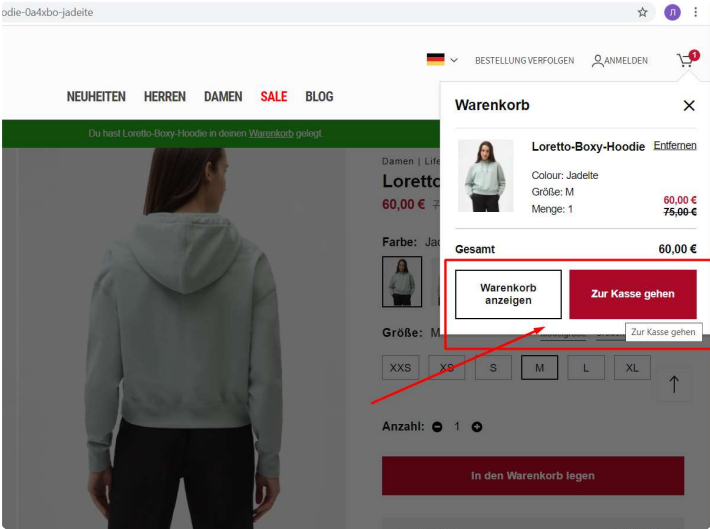

Description

For some languages, e.g. DE button title takes 2 rows and the button becomes too high, see screenshot below.
We need a fix pretty similar to what was done in <https://vf-brands.atlassian.net/browse/MS-8241> for sticky panel CTA on PDP.

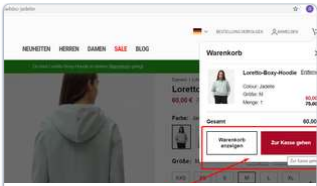

Steps to reproduce:

1. Open [Dickies Streetwear & Skate Clothing | Dickies Life UK](#) .
2. Open product list page (PLP) Women.
3. On German store view add something to the cart.
4. Verify buttons heght in miniCart.

Actual result: title shows in 2 rows and button is too high
Expected result: title shows in 2 rows and button has same height as on default sore.
