Description

The page on mobile shows white space above the sales line, this looks terrible, reduces screen size and makes user scroll.

Steps to reproduce:

1. Open 👁 Dickies Streetwear & Skate Clothing | Dickies Life UK
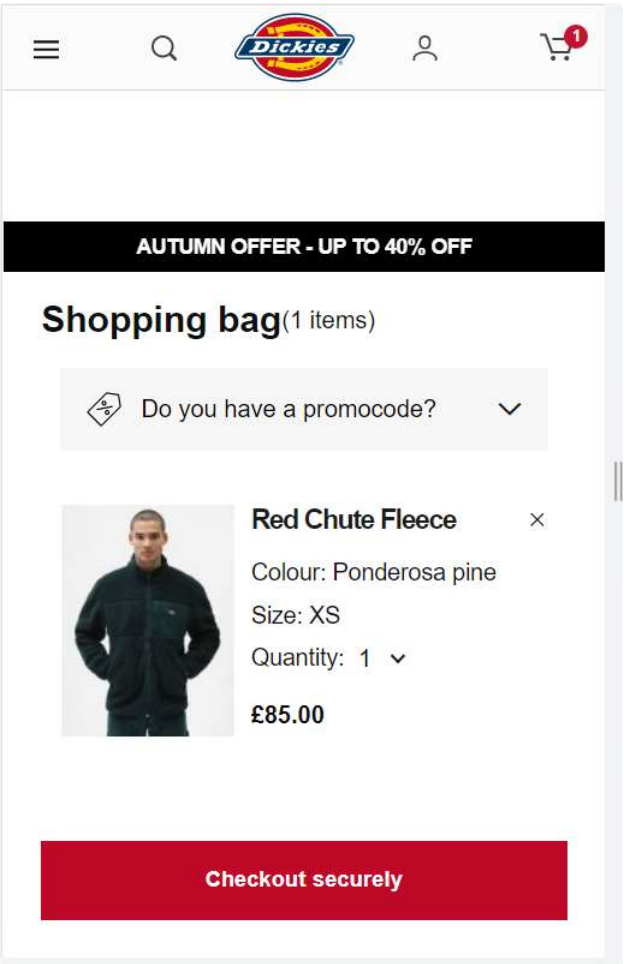

2. Add any product into shopping cart.

3. Go to the shopping cart page on mobile.

Actual result: white space shows between site header and sales line, see screenshot below.
**Expected result:** sales line sticks to the header.
